

St George
Designed for life

26th September 2011

Dear Resident,

Fulham Reach

I would like to introduce myself to you as the Project Director responsible for the delivery of the Fulham Reach development. I will be your main point of contact throughout the construction period.

St George is committed to working with the local community in the coming years at Fulham Reach to minimise disruption during the construction works and to keep you advised on the activities progressing on-site.

In order to keep you informed of the activities on site, you may have seen that we have commenced with site enabling works which include the erection of the site compound. It is also our intention to commence the construction of the marketing suite facility together with the river walk improvements and associated landscaping works in the next few weeks.

In respect of the of the first phase of the development, we currently anticipate to start construction prior to Christmas and I will write to you in due course to provide you with an update.

St George is a member of the National Considerate Constructors Scheme, from whom we have won a number of awards on other development sites and it is our intention to minimise disruption to all local residents during the course of the construction of the development.

Please do not hesitate to contact me at the address below in connection with any issues that you may wish to discuss relating to our construction activities on site.

Yours sincerely,

Richard Pearce
Project Director
